

“CAD Competition”

Objective:

Any machine or idea can be present in the form of drawing. Now a days scenario of industrial revolution i.e 4.0 emphasize on the computer aided design. It is part of syllabus for civil and mechanical engineering students to learn CAD software. This competition will provide the platform to students for developing inherent skills to make drawing of complex part / product.

Rules and Regulations:

Only 1 student will register as a team. Registration fees are Rs.250.00 per partcaipation for single participation and for multiple event participation 150rs for other each event.

In the batch of 20 the part figure/part will be given to produce 2D drawing of the same.

1. Mechanical Engineering
2. Civil Engineering

* Apart from these departments any related branch or inter-disciplinary student will also be allowed in any branch to participate.
