

## **“Poster Presentation Competition”**

### **Objective:**

“Yukti” means idea. Society is now a days full of problems, whether it is infrastructure, power, or productivity. These huge range of challenges require ideas to tackle them. Here based on technical grounds participant can propose a concept/solution for specific area in poster form.

### **Rules and Regulations:**

Maximum 2 students can be participated as a team. Registration fees are Rs.250.00 per Participant for single event participation and for multiple event participation 150rs for other each event.

Poster should include concept or principle, technical implementation of concept (drawing & flow chart), flow of process, and its outcomes. It is desirable that you give every possible technical details for better understanding. You may also present current emerging ideas in line with industry 4.0. Candidates will participate in this event through hybrid mode (online / offline)

### **Specifications for poster:**

- Technical posters are allowed.
- Poster should be prepared on full size i.e. A1 and A2 size good quality blank (white) sheet.
- 1 inch x 1 inch margin has to be provided for poster from the boundary of sheet. One tile block of size 185mm x 65 mm is created at right bottom corner for information of poster (i.e. Title of Poster, Name of Participants, theme of poster etc.)
- Also submit acknowledgement and references in separate A4 page.
- For online participation, the participants have to make maximum 3 minutes video of poster presentation with voice over and submit it to coordinator’s email Id a day prior to the event.

On the basis of concept your poster entry will be accepted and classified department wise.

1. Mechanical Engineering
2. Civil Engineering
3. Electrical and Electronics Engineering
4. IT and Computer Engineering

\* Apart from these departments any related branch or inter-disciplinary poster will also be accepted and classified in relevant branch.
